Luggage Scale**
\$54.95

TRAVELLING abroad can sometimes mean hefty extra luggage charges if you underestimate the weight of your luggage – especially after a shopping trip – but with this handy little device you'll never be caught out at the check-in desk again. Weighing just over 200g, the luggage scale is compact and accurate, with metric and imperial conversions to a maximum of 44kg. As a bonus, the makers also included an alarm clock and flashlight.
